HEAR *what you've been missing...*

A computerized digital hearing instrument so small it hides out-of-sight, while it performs millions of precise calculations per second to give you the highest range of comfortable hearing.

Designed to assist those who:

- ✓ Hear conversation, but can't understand the words.
- ✓ Have trouble understanding with background noise.
- ✓ Have trouble hearing while on the telephone.

Improve your hearing...

Improve your quality of life.

Total Body Health & Hearing Health

Go Hand-
in-Hand

ISOLATION

Adults 50 years and older with untreated hearing loss are more likely to report depression, anxiety, anger, frustration, paranoia and emotional instability; than those who wear hearing aids.

Johns Hopkins Study

DEMENTIA

People with hearing loss are significantly more likely to develop dementia over time than those who retain their hearing.

Johns Hopkins Study

COGNITIVE DECLINE

Those with hearing loss experience a 30-40% greater decline in thinking abilities compared to those without hearing loss.

Journal of the American Geriatric Society - October 2015

DIABETES

Hearing loss is twice as common in people with diabetes compared to those without.*

**Adults with blood glucose that is higher than normal, but not high enough for a diabetes diagnosis, have a 30% higher rate of hearing loss compared to those with normal blood sugar.*

American Diabetes Association - April 2013

Call today *to receive a* **COMPLIMENTARY** **Fiber Optic Otoscope examination.**

Appointments are recommended, as we expect a strong response to this offer.

To actually see inside your ear canal —
it would be fascinating, wouldn't it?

**But more importantly, it may help you
understand why you are experiencing
problems such as:**

- ✓ Hearing the sounds, but not being able to distinguish the words.
- ✓ Having difficulty understanding when two or more people are talking.
- ✓ Turning the TV louder than normal.
- ✓ Frequently asking people to repeat themselves.

Better Hearing Starts Here

FIBER OPTIC
OTOSCOPE EXAMS
ARE HELD FOR
3 DAYS ONLY
& THEY ARE

FREE!

Dennis Lankford, HIS, factory trained Hearing Instrument Specialist will be on hand to help you with your selection based on the outcome of the exam, your hearing concerns and lifestyle.

Now with State-of-the-art
FIBER OPTIC OTOSCOPE
technology, you can find out what's
happening inside your ear... literally.

This procedure is completely painless

**Your Fiber Optic Otoscope exam may
reveal such common problems as:**

- ✓ Visible obstructions in your ear canal
- ✓ Damage to your eardrum
- ✓ Other conditions which may make it difficult for you to hear clearly

Appointment times are limited so call today! (888) 571-8525
